International Conference for **Advanced Materials & Demanding Applications**

27 April - 1 May 2020

Wrexham Glyndwr University, Mold Road, Wrexham LL1 2AW.

Format of the Conference

The conference will comprise formal oral and poster presentations, tours, visits and workshops.

The main formal conference will run from 29th until 30th April.

Call for Abstracts

Delegates are invited to submit abstracts (300 words maximum), and choose whether to present orally or in a poster session.

Please send this to Alison McMillan at a.mcmillan@glyndwr.ac.uk

Papers which meet publication standard will be published as part of the conference proceedings, in: "IOP Conference Series: Materials Science and Engineering". This is a peer reviewed and Scopus indexed journal, and papers are Open Access.

Important Timelines

- 20th March: Abstract deadline
- 3rd April: Confirmation of abstract acceptance
- 26th June: Closing date to submit paper to proceedings
- 21st August: Final revisions of papers complete and ready for publication.

Collaboration Workshop

On the morning of Friday 1st May, there will be a workshop on collaboration building, with an opportunity to begin discussions for international collaborations with other delegates. A major theme for the workshop is International collaboration building.

Registration Fees

Registration fees are expected to be £100 for the formal conference session, but there will be additional charges for visits and meals.

Overseas Delegates and Visas

Most overseas delegates would be eligible to attend with a Standard Visitor Visa. www.gov.uk/standard-visitor-visa

More Information

Further information about the conference will be made available on the conference group hosted on LinkedIn: www.linkedin.com/groups/12331182/

This also includes a link to a survey asking for your opinion and suggestions for workshops and events.

If you have questions or suggestions for the conference, please post these to the LinkedIn conference group.
